

Terminals & Services & Coming Vessels For Ningbo Port

On August 11, 2021, Ningbo Meishan terminal was closed due to a COVID-19 case.

Will Ningbo port be another case like recent Yantian shutdown? We provide related information for your reference.

Ningbo port has six terminals, and Meishan is quite isolated from other terminals.

1. Ningbo Beilun Container Terminal (Phase 2)
2. Ningbo Beilun Second Container Terminal (Phase 3)
3. Ningbo Beilun Third Container Terminal (Phase 4)
4. Ningbo Beilun Yuandong Container Terminal
5. Ningbo Daxie International Terminal (China Merchant)
6. Ningbo Meishan Island International Container Terminal

Ningbo port has total 57 services on Trans Pacific and Asia-Europe trades. Among them, Meishan has 14 services on TP and NEU trades but none on Mediterranean.

From schedule updated on August 11, 2021, we extracted vessels coming to Meishan terminal in the rest of August. Some vessels would skip Ningbo calling if containers have already gated in the Meishan; some vessels would divert to other terminals if containers haven't gated in yet. However, big vessels on NEU trade could not divert easily as other terminals might not be able to handle them.
